

I oppose Bill HB5429. This kind of one-size-fits-all forced density by state lawmakers will ruin idyllic towns such as New Canaan and is not needed. Where it makes sense for transit-oriented development to happen, it is happening.

Bill HB5429 doesn't exempt inadequate sewer capacity, historic areas or a Town's unique needs for open space preservation or infrastructure problems. This does not make sense and sounds destructive.

From the perspective of a 40 year resident of New Canaan CT
